

Project Name		Swish		Bug Report							
Created By		Vikash kumar Bharti									
Created Date		10 - 04 - 2025									
Device Name		Redmi Note 5 pro									
Bug ID	Description	Test Steps	Test Data	Priority	Severity	Browser / Version	Expected Result	Actual Result	Status	Screenshot	Suggestion
BUG-001	Unable to add product to cart	1. Open Swish app 2. Search/select a product 3. Click "Add" button	Any product Like "Milk 1L"	High	Critical	Swish App / Android Device Name - Redmi Note 5 Pro	Product should be added to cart and reflected in cart icon	Nothing happens on tap	Open		Check if add-to-cart function is correctly triggered and connected to backend/cart API
BUG-002	Location not detected when selecting live location	1. Launch Swish app 2. Go to address section 3. Tap on "Select Live Location" 4. Grant permission if prompted	Location access enabled	Medium	Major	Swish App / Android Device Name - Redmi Note 5 Pro	App should auto-detect and fill current location	App fails to fetch location or keeps loading	Open		Check if GPS is enabled and location permission is handled properly. Implement fallback with manual location search.
BUG-003	Order tracking not updating in real-time	1. Place an order on Swish app 2. Tap on "Track Order" 3. Observe the ETA after delivery is completed	Recently delivered order	Medium	Major	Swish App / Android Device Name - Redmi Note 5 Pro	ETA should update accurately based on real-time delivery status	Order is delivered but app still shows "4 min left" or outdated ETA	Open		Improve real-time sync between delivery status and tracking UI; verify push update or polling frequency
